For a number of months you have not been informing us about the state of the Soviet Colony. Evidently you are not paying due attention to work in this line. In your next letter report in detail what is being undertaken by the office to get the work of looking after the Soviet Colony going smoothly, what noteworthy material has been obtained recently, what specifically is being done [or to get going with] setting up a qualified probationer [STAZHENSKAYA] network, whether liaison has been established with "ALEKSEVA", [i] "SILNOV", [ii] "MARIYA", [iii] "ZARAJSKIJ", [iv] how these probationers are being employed [and] what they are giving us of value. We direct your attention to the need for more serious attention to work in the line of looking after the Soviet Colony.
